

LESSON PLAN

FOUNDATIONS LANDSCAPE TILE

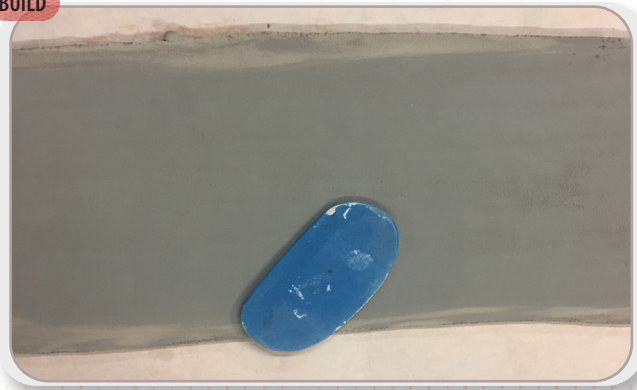

PRODUCTS AND TOOLS USED

- LEM-100 1.5 lbs Low-fire White Clay
- Water
- Sponge
- Fettling knife
- Pencil
- Slab roller or rolling pin
- Rib
- Brushes for glazing

COLOR USED

- FN-212 Bule Dimond
- FN-21 Olive Green
- FN-7 Green
- FN-37 Chartreuse
- FN-29 Rich Chocolate

BUILD

1. Roll clay out into a slab that is about 1/8" thick
2. Compress with rib

3. Using a fettling knife cut base tile shape to your desired size and save extra slab pieces

4. Use extra slabs to create hills in the foreground and middle ground of your image by flattening them more with your hands and cutting them to size
5. Slip and score to attach pieces to base slab

6. Roll out multiple coils to create tree design
7. Attach by slipping and scoring

LESSON PLAN: FOUNDATIONS LANDSCAPE TILE

8. Add additional texture details to slab with your pencil by drawing in lines or creating a "hammered metal" texture in the sky
9. Allow tile to dry slowly

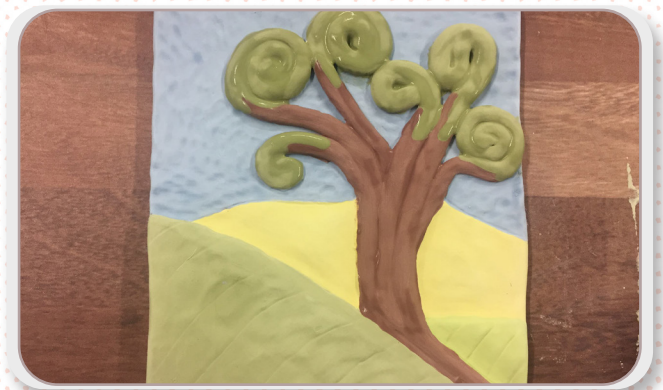

10. Once fully dry, bisque fire to Cone 04

GLAZE

11. Once fully dry, bisque fire to Cone 04

12. Using a soft bristled brush, apply 3 coats of FN-37 Chartreuse to the hill in the background, allowing glaze to dry in between coats

13. Using the same glazing technique, apply 3 coats of FN-7 Green to the middle ground hill and 3 coats of FN-21 Olive Green to the hill in the foreground

14. Apply 3 coats of FN-212 Blue Diamond to the sky, 3 coats of FN-29 Rich Chocolate to the tree trunk and

LESSON PLAN: FOUNDATIONS LANDSCAPE TILE

branches and 3 coats of FN-21 Olive Green to the tree's leaves

15. Allow to dry completely
16. Glaze fire to Cone 06
